

# **FREE AI PROMPTS FOR WORK AND PRODUCTIVITY by Chinwe Amaka**

## **(Content Creators)**

1. List and explain practical ways to learn [insert the skill/habit] as a total beginner.
2. Act as a [coach/tutor] and explain how I can [insert what you want to do or learn] in simple words.
3. Topic: AI will take your job. For the above topic, write an extensive detailed [article/essay/post] with examples to oppose the notion that AI will take the jobs of human.
4. My name is Chinwe Amaka, a multiple award winning content creator with over 2 years of

experience as a digital and fast rising creator on social media, including; Facebook, LinkedIn, TikTok, and even Youtube with over 200 subscribers.

Using the above information, craft a professional bio for my resume. Make sure the bio stands out, it's attractive, and professional.

5. A photorealistic image of a large human papilloma virus on a large table surrounded by world renowned doctors dressed in a lab coat, performing surgery on the virus. Captured from a surgery scene, vivid colors, showing the intricate details of the HP virus. Shot with Canon EOS, the image portrays the growth and formation of this dangerous virus.

(This particular prompt generated stunning images that can be used for health articles/posts or for brands in the health sector. Try this prompt on Bing, Adobe Firefly, Midjourney, etc.)

6. Thousands of years later, the once glorious golden castle built by King Solomon is now rusted; partly

decayed, evil trees grew from the floor of the castle destroying the legendary roof. The statue of King Solomon outside the castle is now a nest for an evil looking bird staring down at its prey. Cinematic lightning, horror scene, captured from the underworld & shot with Alpha 6600.

7. Step into the world of Artificial intelligence and imagine an extremely detailed and hyper realistic 3D cutaway image of a modern robot, highlighting all the important components of the robot and how everything works in unison.
8. I want to write a book on {insert your book topic} for {insert audience/readers}. Act as a professional in {insert the field} and list 10 outline for this eBook, starting from introduction to the conclusion.

For example; I want to write a book on “step-by-step guide to skyrocketing your business growth using artificial intelligence tools” and this book is targeted at medium & big e-commerce brands in Nigeria. Act as a professional in artificial intelligence for sales and

marketing, and list 10 outlines for this book starting from the introduction to the conclusion of the book.

9. In a brief sentence, describe the 2023 Tesla Model Car including the specification and its outstanding qualities.

(I tried this prompt on Franks.ai and it gave me a detailed description of the car. I copied the description, and used it to create an image of the car using Bing Image Generator and Adobe Firefly Beta).

10: I want to start a subscription program on WhatsApp for Nigerian content creators. Give me 10 monetizable subscription program ideas that Nigerian content creators would be willing to subscribe for.

For example: A subscription program for daily tips on how to leverage AI for content creation in Nigeria.

11: Help me create three attention-grabbing opening sentences for an article on “How to start a successful YouTube Channel in Nigeria”.

## **(Administrators)**

12: Search for reputable online platforms offering Nigerian-focused courses on office management and organizational skills.

13: Find practical guides on optimizing virtual communications and teamwork for Nigerian administrative teams.

14: Act as an administrator in (insert your field), and find the latest government regulations and policies regarding remote work arrangements and employee benefits.

15: Research best practices for creating a conducive work environment in Nigerian offices, taking into

consideration cultural norms and employee well-being.

16: Find case studies of successful Nigerian companies implementing sustainable practices in their administrative operations.

## **(Entrepreneurs)**

17: Act as an entrepreneur in Nigeria and find market insights and statistics on consumer behavior and purchasing patterns within the Nigerian {insert your industry name} industry.

18: Search for potential funding opportunities and grants available for Nigerian startups in the technology sector.

19: Research effective marketing strategies for reaching a Nigerian target audience on social media platforms, considering cultural nuances and local trends.

20: Find resources and guides on developing a business plan specific to a Nigerian restaurant or food delivery startup {insert your industry}.

21: Explore the impact of e-commerce on small businesses in Nigeria and find success stories of Nigerian entrepreneurs thriving in the digital marketplace.

### **(Professionals)**

22: Act as a professional in Nigeria, and research the latest trends and development in the Nigerian oil and gas industry, focusing on renewable energy initiatives.

23: Find reputable online platforms offering professional development courses and certifications relevant to the Nigerian banking and finance sector {Insert your professional industry}.

24: Search for resources and articles on effective negotiation techniques within the Nigerian business context.

25: Research the impact of digital transformation on Nigerian healthcare systems, including telemedicine and health tech advancements.

26: Find insights and resources on navigating cross-cultural communication in Nigerian workplaces, addressing the diversity and inclusion challenges.

### **(Students)**

27: Act as a Nigerian student and research the benefits and challenges of e-learning in Nigerian universities, focusing on access and affordability.

28: Find scholarly articles or research papers on the impact of social media on Nigerian youth culture and formation.

29: Search for free online coding courses tailored for beginners in Nigeria, emphasizing practical applications in the Nigerian tech industry. {Insert the type of course you are interested in}

30: Research reputable sites, universities, colleges, high schools or polytechnics where I can find free graduate/undergraduate/masters scholarship opportunities in and outside Nigeria.

31: Find resources and strategies for effective time management and study techniques during Nigerian university entrance examination.

P.S: Feel free to customize and adapt these prompts further to suit your needs and the specific results you want to generate.
